

A MEMORIAL FROM LABOR

Presented to Speaker Cannon and the Vice President.

EMPLOYERS' LIABILITY ACT

Leaders Express the Belief That a Constitutional Measure Will Be Passed by Congress—Labor Indignant at Action of Courts.

Washington, March 20.—Speaker Cannon and Vice President Fairbanks have announced their belief that the present congress will pass an employers' liability act which will meet and overcome the unconstitutionality of the present law pointed out by the supreme court of the United States in a recent decision. These statements were made unreservedly by Speaker Cannon and guardedly by the vice president to a delegation led by Samuel Gompers, president of the American Federation of Labor, from eighty-seven national and international trade and labor organizations, and farmers' organizations assembled in a national conference in this city. The delegation called on the speaker to lay before the house of representatives through him a memorial entitled "Labor's protest to congress." The scope of this memorial was set forth in the following opening paragraphs:

"We, the official representatives of the national and international trade and labor unions and organizations of farmers, in national conference assembled in the District of Columbia for the purpose of considering and taking action deemed necessary to meet the situation in which the working people of our country are placed by recent decisions of the courts, now appear before congress to voice the earnest and emphatic protest of the workers of the country against the indifference, if not actual hostility, which congress has shown toward the reasonable and righteous measures proposed by the workers for the safeguarding of their rights and interests. Urge Immediate Action.

"In the name of labor we now urge upon congress the necessity for immediate action for relief from the most grave and momentous situation which has ever confronted the working people of this country. This crisis has been brought about by the application by the supreme court of the United States of the Sherman anti-trust law to the workers both organized and in their individual capacity.

"Labor and the people generally look askance at the invasion of the court upon the prerogatives of the lawmaking and executive departments of our government.

"The workers feel that congress itself must share our chagrin and sense of injustice when the courts exhibit an utter disregard for the real intent and purpose of laws enacted to safeguard and protect the workers in the exercise of their normal activities. There is something ominous in the ironic manner in which the courts guarantee to workers:

"The right to be maimed and killed without liability to the employer.

"The right to be discharged for belonging to a union.

"The right to work as many hours as employers please and under any conditions which they may impose.

"Labor is justly indignant at the bestowal or guaranteeing of these worthless and academic 'rights' by the courts, which in the same breath deny and forbid to the workers the practical and necessary protection of laws which define and safeguard their rights and liberties and the exercise of them individually or in association."

Responding to the presentation of the memorial by Mr. Gompers, Speaker Cannon in part said:

Speaks as a Representative.

"I speak as a representative, and not for congress. It is proper for me to say, touching your reference to the employers' liability bill or law which has been construed by the court of last resort, which under our form of government must be supreme in the construction of the law, that I am of the belief, as I move about and come in contact with members of the house, that there has been no time since the delivery of the opinion of the court in the case referred to when there has not been a sentiment, I should say, well nigh universally, in the house, to enact such an employers' liability bill—the original of which originated in the house and which has recently been construed by the court—in conformity with the opinion of the court as will give a remedy to employees for injuries, taking care, so far as congress or the house may be able to do so, that the act that may be enacted is

so framed that it will be sustained by the courts. I cannot tell just when, because with respect to the 15,000 bills that have already been introduced and referred to the appropriate committees, in the orderly transaction of business in the house, as in any other deliberative body, they must await the action of the committees. And yet I apprehend and am convinced that, after full consideration, there will be action on that bill by the house, and possibly or probably, so far as I know and I believe, by the senate."

The delegation called on the vice president. Mr. Gompers introduced his associates and explained briefly the purpose of the visit. Mr. Fairley read the statement of grievances, whereupon the vice president responded as follows:

"Your petition is clearly and strongly presented. I will see that it is brought to the attention of the senate as you desire at the earliest moment possible. Speaking personally I hope and believe that congress will be disposed to give to the important subjects you have called to its attention that consideration which their importance justifies, to the end that justice and fairness may be done."

ANOTHER CONFERENCE.

Held to Perfect a Bill Modifying the Anti-Trust Law.

Washington, March 20.—Another of the series of conferences, the object of which is to perfect a bill modifying the Sherman anti-trust law so as to exempt labor organizations from its operations, was held here. Participating were President Gompers and Secretary John B. Lennon of the American Federation of Labor; Seth Low, former mayor of New York, president of the American Civic Federation; Commissioner of Labor Neill and Professor Jeremiah E. Jenks of Cornell university. Beyond the statement that "it was for the purpose of determining whether we can associate our efforts to bring about the desired relief," President Gompers declined to discuss the details of the conference. Later Mr. Low, who has been here for several days aiding in drafting the proposed amendments to the Sherman act, left for New York city.

It was learned from an authoritative source that the proposed bill of relief for organized labor practically has been perfected and it is understood to be fair to all interests concerned. It tentatively has been agreed to introduce the bill in congress on Wednesday next.

METCALF TESTIFIES.

Naval Secretary Appears Before Investigating Committee.

Washington, March 20.—Secretary of the Navy Metcalf and Admiral Capps, chief of the bureau of construction of the navy department, testified before the special committee of the house that is investigating the charges made against the Electric Boat company by Representative Lilley of Connecticut. Both stated that they did not believe that the Electric Boat company had secured an excessive profit on the contracts already awarded them, nor did they believe they would make an excessive profit on any future contracts they may secure.

Secretary Metcalf explained the letting of a contract to the Lake Boat company, saying that it was a conditional one, as no money was to be paid the company unless it built a boat that equalled in speed and steaming radius the best submarine boat now possessed by the government or under contract for it. Admiral Capps said that the navy was getting its construction work done at a very low figure.

Representative Butler of Pennsylvania denied a statement by Secretary Metcalf that he had called on him in connection with submarine boats.

Edward L. Clarkson, private secretary to Representative Hobson, testified that Lawrence Y. Spear, a vice president of the Electric Boat company, told him that his company had influence with Speaker Cannon and could use it to help Captain Hobson get on the naval affairs committee, but before doing so, "would have to know how he stood on the proposition in which he was interested—the question of submarines."

Congressman Clayton of Alabama testified that the Alabama delegation in congress endorsed Captain Hobson for assignment to the naval affairs committee and L. W. Busbey, secretary to Speaker Cannon, stated that the only request made to the speaker to appoint Mr. Hobson on that committee was made by Mr. Williams, the minority leader of the house.

Representative Lilley did not attend the sitting of the committee except at the opening. The public sessions of the committee were adjourned until next Thursday

WILL GO UNPLEDGED

New York Delegation to Convention at Denver.

ONLY ONE MAN FOR BRYAN

Balance of Democratic State Committee Oppose Nebraskan's Candidacy. Chairman Connors Favors Governor Johnson.

New York, March 20.—As predicted by Chairman W. J. Connors, the Democratic state committee voted almost solidly in favor of an unpledged delegation to the national convention.

But one voice was raised in opposition, that of Charles P. Williams of Lyons, who subsequently explained that he stood for William J. Bryan, and if Mr. Williams could have had his way the birthday gifts to the Nebraskan would have included the promise of united support by the Democracy of New York state.

The prevailing sentiment was expressed in a resolution which, after setting forth that the interests of the country and party demand the selection as presidential candidates of men who at the time and place of the national gathering shall appeal most strongly to the intelligence and judgment of the whole body, calls upon the Democratic electors of the state to choose as delegates the strongest and ablest men in their ranks and send them to the national convention "unfettered by conditions and unpledged and uninstructed as to candidates."

Meeting Was Very Brief.

The meeting, held at the Hotel Victoria, lasted just eight minutes. Each of the fifty-one members was either present or represented by proxy. Upon the motion of Thomas W. Flinn of Rochester, it was unanimously agreed to hold the state convention in Carnegie hall, this city, at 10 o'clock on the morning of April 14. At that time four delegates-at-large to the national convention will be elected.

The resolution for unpledged delegates was introduced by Fletcher C. Peck of Nunda.

The roar of "ayes" that responded to the chair's call for a vote on the adoption of the resolution was followed by a single "no," enunciated with an emphasis that brought Chairman Connors to his feet.

"Who was that?" he asked. But Mr. Williams did not make clear his attitude until after adjournment.

Chairman Connors, before the meeting, had repeated that the sentiment for Bryan was on the wane in New York and that not more than three of the fifty-one members of the state committee were in favor of his nomination for the presidency. He also reiterated his expression of opinion that the prevailing sentiment throughout the state was for Governor Johnson of Minnesota, but added that he did not think the state delegation should be instructed for any one.

CONTINUES HIS SPEECH.

Senator La Follette Discusses Valuation of Railroads.

Washington, March 20.—Continuing his speech begun in the senate last Tuesday, Senator La Follette of Wisconsin devoted considerable time to discussing a proposition for the physical valuation of railroads. The blind senator from Oklahoma, Mr. Gore, attempted to draw Mr. La Follette into a criticism of the actions of the president and Secretary Cortelyou in connection with the recent financial disturbance, but failed, the Wisconsin senator expressing the opinion that the president had acted in a way which he believed at the time to be in the interest of the country.

The senate devoted part of the day to the consideration of the omnibus claims bill and then referred it back to committee for further consideration.

FIRE IN LUMBER YARD.

Destroys Property Valued at Half a Million Dollars.

Washington, March 20.—Fire broke out in the lumber yards of Elsingger Bros. at Seventh and U streets, northwest, and quickly spread to a number of residences.

The American league baseball park was threatened and the building recently vacated by the Freedmen's hospital was partially destroyed.

The lumber yard is the largest in the city. The loss is estimated at \$500,000, mostly confined to the lumber yard.

Big Plant Burned.

Lowell, Mass., March 20.—The plant of the Fifield Tool company, makers of engine laths and other machinery, one of the largest shops of its kind in the country, has been destroyed by fire. The loss is estimated at \$400,000.

Spring IS coming

Despite the snow flurries.

What's the moral—Just this

It's the first warm day of the spring that you want to put on your new spring garments. You like to be among the first to wear them and the only way to have them at this time is to purchase early.

We will show a beautiful line of suits and jackets tomorrow and you should secure the first selection as well as prepare for the first warm days.

"MICHAEL'S"

The Bargain Basement

We will begin re-opening our Bargain Basement by opening the front portion tomorrow. Our final opening of the entire section will not be held until next week.

"MICHAEL'S"

FLOOD AT PITTSBURG.

Attended by Enormous Losses to Property.

Pittsburg, March 20.—A feeling of relief swept over Pittsburg and vicinity when officials of the United States weather bureau announced that conditions had suddenly changed and that the flood which came upon the city with unusual suddenness would not be as serious as they had expected. It was stated that the crest of the flood would probably not exceed twenty-eight feet, instead of thirty-three feet or more, the forecast of the first warning. The danger line in Pittsburg is twenty-two feet. At the extreme headwaters the rivers are falling, rain having ceased.

The Lower Allegheny and the Lower Monongahela are still rising, the average rate being about eight-tenths of a foot. The Ohio is rising rapidly.

Although the flood will not be as serious as feared, it will be attended by enormous loss, much of which already has been inflicted. The rise came with such suddenness that there was not time to remove goods and take other precautions. Thousands of cellars and the first floors of hundreds of homes in the lowlands are flooded; muddy water is flowing through scores of industrial plants and it is estimated that at least 25,000 employees will be unable to work. Basements of stores all through the retail district in the lower part of the old city and on the North Side are full of water and much merchandise is either totally destroyed or seriously damaged.

Many families are prisoners in their homes and are being furnished food and other necessities by the flood patrol and relief committees, who use skiffs, boats and improvised rafts in getting through the flooded streets. Railroads are delayed and crippled and heavy losses of property. Landslides and washouts have occurred in all directions from the city and throughout the Pittsburg district. River craft have suffered severely.

Bold Bank Robbery.

Muskogee, Okla., March 20.—Two robbers believed to be members of the gang that held up the Tyro, Kan., bank last week walked into the Davis bank at Hoffman, Okla., thirty miles southwest of here, covered the bank officials with pistols and gathering up \$900 in currency, mounted their horses and escaped.

SECRETARY ARRESTED

Accused of Looting Fraternal Society's Treasury.

WILL APPLY FOR RECEIVER

Michigan Banking Commissioner Declares the Fraternity is Hopelessly Insolvent—Secretary Invested Heavily in Mining Stocks.

Port Huron, Mich., March 20.—An investigation into the affairs of the United Home Protectors' Fraternity of this city, ordered by the state banking commissioner, ended with the announcement that Supreme Secretary W. L. Wilson of this city is short a sum in excess of \$75,000 and his arrest on the charge of embezzlement. State Banking Commissioner Zimmerman, who took charge of the affairs of the fraternity, states that Secretary Wilson had been investing heavily in electric railroad promotion and in oil and mining stocks. He says that Secretary Wilson's speculations were committed by means of continuing on the books of the fraternity, which operated a building and loan business, as live assets, mortgages and certificates of the association which had been paid. Mr. Zimmerman says that the fraternity is hopelessly insolvent and that he will apply for a receiver. The shortage came to light through the discovery, Mr. Zimmerman says, by a bank examiner that the funds of the local lodge, of which Mr. Wilson was also secretary, and those of the supreme lodge, deposited in the same bank, had been juggled. Following this discovery the commissioner ordered the trustees to make an investigation of the fraternity's books, which began several days ago. It came to a climax when the trustees summoned Mr. Wilson before them and he made, they state, a complete confession.

The United Home Protectors' Fraternity was organized fourteen years ago under a special act of the legislature and conducted a building and loan business in the form of a security, doing business among its own members. There are about 100 subordinate lodges scattered throughout both

the Upper and Lower Peninsulas of Michigan, with a total membership of about 2,500. The officers of the institution are all residents of Port Huron.

Mr. Wilson, who is about forty-five years of age, is married and has four children. He was made secretary of the fraternity when it was organized and his salary was \$1,800 per year.

NOT ENGAGED TO PRINCE

Madame Anna Gould Says She Has Had Enough of Married Life.

New York, March 20.—Madame Anna Gould, the divorced wife of Count Boni de Castellane, arrived here on the steamer Adriatic and took immediate occasion to stifle the gossip that, shuttling between two continents, has associated her future plans with the name of Helie de Sagan. The latter, to whom French custom also accords a title—that of prince—is a cousin of the count, and he has figured more or less in the affairs of the Castellanes. Posing as her champion following the divorce proceedings, De Sagan came to be credited with prospects of marriage to the plaintiff, but no sooner had Madame Gould set foot upon American soil than she declared: "I have had enough of married life. I am not engaged to any one."

Madame Gould was accompanied from Paris by her three sons, Boni, Jay and George, the custody of whom the French courts awarded to the mother. The party was met at the pier by Miss Helen Gould, Mrs. George Gould and Mrs. Tyler Morse. All were later driven to the Fifth avenue home of Miss Gould.

EXCURSION TRAIN WRECKED

One Man Killed and Eight Other Persons Injured.

San Antonio, Tex., March 20.—One man was killed and eight other persons were badly injured when an excursion train on the International and Great Northern railroad, bearing a party of homeseekers from Kansas and Oklahoma en route to Mexico, was wrecked at Pearsall, fifty-two miles south of this city. The engine and tender, baggage car and four day coaches left the track, the derailment being caused by a broken rail.

The train consisted of a baggage car, ten day coaches and a Pullman. The last six cars remained on the track.

Telephone 100

BRAINERD BUSINESS COLLEGE

Temporary Quarters SLEEPER BLOCK.

The opening session was most satisfactory to the management. Between 40 and 50 students are already on the register. The course of study presented here equals the best to be had in New York or Chicago. Any young man or woman in Brainerd who voluntarily elects to disregard such an opportunity as is now offered, will act without wisdom. Every young man or woman needs this training if he or she wishes to win in the battle of life. We offer you a fascinating as well as highly profitable course of study. Our new quarters are nearing completion and will be among the best in the country.

A MEMORIAL FROM LABOR

Presented to Speaker Cannon and the Vice President.

EMPLOYERS' LIABILITY ACT

Leaders Express the Belief That a Constitutional Measure Will Be Passed by Congress—Labor Indignant at Action of Courts.

Washington, March 20.—Speaker Cannon and Vice President Fairbanks have announced their belief that the present congress will pass an employers' liability act which will meet and overcome the unconstitutionality of the present law pointed out by the supreme court of the United States in a recent decision. These statements were made unreservedly by Speaker Cannon and guardedly by the vice president to a delegation led by Samuel Gompers, president of the American Federation of Labor, from eighty-seven national and international trade and labor organizations, and farmers' organizations assembled in a national conference in this city. The delegation called on the speaker to lay before the house of representatives through him a memorial entitled "Labor's protest to congress." The scope of this memorial was set forth in the following opening paragraphs:

"We, the official representatives of the national and international trade and labor unions and organizations of farmers, in national conference assembled in the District of Columbia for the purpose of considering and taking action deemed necessary to meet the situation in which the working people of our country are placed by recent decisions of the courts, now appear before congress to voice the earnest and emphatic protest of the workers of the country against the indifference, if not actual hostility, which congress has shown toward the reasonable and righteous measures proposed by the workers for the safeguarding of their rights and interests.

Urge Immediate Action.

"In the name of labor we now urge upon congress the necessity for immediate action for relief from the most grave and momentous situation which has ever confronted the working people of this country. This crisis has been brought about by the application by the supreme court of the United States of the Sherman anti-trust law to the workers both organized and in their individual capacity. "Labor and the people generally look askance at the invasion of the court upon the prerogatives of the lawmaking and executive departments of our government.

"The workers feel that congress itself must share our chagrin and sense of injustice when the courts exhibit an utter disregard for the real intent and purpose of laws enacted to safeguard and protect the workers in the exercise of their normal activities. There is something ominous in the frontal manner in which the courts guarantee to workers:

"The right to be maimed and killed without liability to the employer. "The right to be discharged for belonging to a union.

"The right to work as many hours as employers please and under any conditions which they may impose.

"Labor is justly indignant at the bestowal or guaranteeing of these worthless and academic 'rights' by the courts, which in the same breath deny and forbid to the workers the practical and necessary protection of laws which define and safeguard their rights and liberties and the exercise of them individually or in association."

Responding to the presentation of the memorial by Mr. Gompers, Speaker Cannon in part said:

Speaks as a Representative.

"I speak as a representative, and not for congress. It is proper for me to say, touching your reference to the employers' liability bill or law which has been construed by the court of last resort, which under our form of government must be supreme in the construction of the law, that I am of the belief, as I move about and come in contact with members of the house, that there has been no time since the delivery of the opinion of the court in the case referred to when there has not been a sentiment, I should say well nigh universally, in the house, to enact such an employers' liability bill—the original of which originated in the house and which has recently been construed by the court—in conformity with the opinion of the court as will give a remedy to employees for injuries, taking care, so far as congress or the house may be able to do so, that the act that may be enacted is

so framed that it will be sustained by the courts. I cannot tell just when, because with respect to the 15,000 bills that have already been introduced and referred to the appropriate committees, in the orderly transaction of business in the house, as in any other deliberative body, they must await the action of the committees. And yet I apprehend and am convinced that, after full consideration, there will be action on that bill by the house, and possibly or probably, so far as I know and I believe, by the senate."

The delegation called on the vice president. Mr. Gompers introduced his associates and explained briefly the purpose of the visit. Mr. Fairley read the statement of grievances, whereupon the vice president responded as follows:

"Your petition is clearly and strongly presented. I will see that it is brought to the attention of the senate as you desire at the earliest moment possible. Speaking personally I hope and believe that congress will be disposed to give to the important subjects you have called to its attention that consideration which their importance justifies, to the end that justice and fairness may be done."

ANOTHER CONFERENCE.

Held to Perfect a Bill Modifying the Anti-Trust Law.

Washington, March 20.—Another of the series of conferences, the object of which is to perfect a bill modifying the Sherman anti-trust law so as to exempt labor organizations from its operations, was held here. Participating were President Gompers and Secretary John B. Lennon of the American Federation of Labor; Seth Low, former mayor of New York, president of the American Civic Federation; Commissioner of Labor Neill and Professor Jeremiah E. Jenks of Cornell university. New York, March 20.—Madame Anna Gould, the divorced wife of Count Boni de Castellane, arrived here on the steamer Adriatic and took immediate occasion to stifle the gossip that, shuttling between two continents, has associated her future plans with the name of Helie de Sagan. The latter, to whom French custom also accords a title—that of prince—is a cousin of the count, and he has figured more or less in the affairs of the Castellanes. Posing as her champion following the divorce proceedings, De Sagan came to be credited with prospects of marriage to the plaintiff, but no sooner had Madame Gould set foot upon American soil than she declared: "I have had enough of married life. I am not engaged to any one."

Madame Gould was accompanied from Paris by her three sons, Boni, Jay and George, the custody of whom the French courts awarded to the mother. The party was met at the pier by Miss Helen Gould, Mrs. George Gould and Mrs. Tyler Morse. All were later driven to the Fifth avenue home of Miss Gould.

EXCURSION TRAIN WRECKED

One Man Killed and Eight Other Persons Injured.

San Antonio, Tex., March 20.—One man was killed and eight other persons were badly injured when an excursion train on the International and Great Northern railroad, bearing a party of homeseekers from Kansas and Oklahoma en route to Mexico, was wrecked at Pearsall, fifty-two miles south of this city. The engine and tender, baggage car and four day coaches left the track, the derailment being caused by a broken rail.

The train consisted of a baggage car, ten day coaches and a Pullman. The last six cars remained on the track.

Telephone 100

BRAINERD BUSINESS COLLEGE

Temporary Quarters SLEEPER BLOCK.

The opening session was most satisfactory to the management. Between 40 and 50 students are already on the register. The course of study presented here equals the best to be had in New York or Chicago. Any young man or woman in Brainerd who voluntarily elects to disregard such an opportunity as is now offered, will act without wisdom. Every young man or woman needs this training if he or she wishes to win in the battle of life. We offer you a fascinating as well as highly profitable course of study. Our new quarters are nearing completion and will be among the best in the country.

ENTER NOW—DAY AND NIGHT SCHOOL

L. J. CALE'S Department Store

We have just received a complete and attractive line of White Shirt Waists for ladies' or missess' which we desire to call your attention to; also a new and very pretty assortment in ladies neck wear. Come in and see these two lines also many others as we are receiving new spring goods every day. We are always glad to welcome you whether you are ready to purchase or not.

WE CARRY THE PEERLESS PATTERNS. These are very reliable patterns and make the worries of home dress-making a thing of the past.

Says I to myself, says I, **Occident Flour** is the kind to buy—O. S. SWANSON.

TOO MUCH LIKE CAESAR.

Fearing His Power, Roosevelt Won't Run, Says Colonel Harvey.

In illustrating his Bromley foundation lecture on journalism at Yale university the other day Colonel George Harvey, editor of Harper's Weekly, made use of his ideal of a newspaper, which he called the Bromley Morning News. On the front page appeared an article attributed to "our special correspondent at Washington," purporting to tell the fundamental reason why President Roosevelt would not accept a renomination and re-election. An extract from it said:

"The president's most poignant regret is that circumstances render it impossible for him as a patriot to make the fight. In reaching this definite and final conclusion he was influenced doubtless to some degree by the fact of his announcement that he would not accept a renomination and by his sense of personal loyalty to Secretary Taft. But the chief consideration was one that has not hitherto been guessed. Mr. Roosevelt is a student of history, and especially the history of the lives of great men whose careers have made a serious impress upon the political fortunes of their countries. The one vital lesson that he has drawn from his studies is that re-election to a third term in the present peculiar condition of the public mind would endanger the republic.

"He feels that temperamentally he strikingly resembles Augustus Caesar. He fully appreciates that his impulse is as strong as was that of the Roman emperor to seize all the power he can get in order to accomplish quickly any laudable purpose in the interest of the public. Indeed, experience has convinced Mr. Roosevelt's judgment that this tendency within himself to absorb authority for the performance of good is irresistible.

"Moreover, he feels certain that his triumphant re-election by an overwhelming majority would arouse in the minds of the people a positive insistence that he remove all obstacles to the carrying out of their will as interpreted by him. With characteristic prescience he foresees a possible situation which could be resolved only by the acquisition of complete and undivided personal authority even less gradually than it was obtained by his prototype in character and temperament, the Roman emperor to whom he referred. On patriotic grounds, therefore, as a lover of free institutions and from an earnest desire to perpetuate the great republic in substantially its original form he would not under any conceivable circumstances accept a renomination from either or both of the great political parties."

The supreme excellence is simplicity.—Longfellow.

616 Front St.

A BEAUTIFUL DREAM.

Altruistic View of a Wonderfully Happy State of Affairs.

When all the saloons are shut and a few vineyards, breweries and distilleries supply what stimulant is called for by judicious and responsible (certified) drinkers; when a few surviving stockbrokers attend twice a month to the necessary business of the bona fide investors; when an occasional horse race is permitted strictly for the delectation of horse lovers who never bet; when the captains of industry and finance always retire from the game as soon as they have made comfortable provision for their declining years; when labor unions cease to attempt to keep nonunion men from working; when entrance fees at intercollegiate contests are abolished and the presiding bishop of the Methodist church and the president of the W. C. T. U. divide the command of the United States army; when all the trusts are dead and all the railroads carry freight and passengers for nothing, and everybody forty years old has six children and a pension, and duties are abolished and income and inheritance taxes support the government, and Jack London is president and Bryan in congress, and Arthur Brisbane and Upton Sinclair are the supreme court, what a wonderfully improved country this will be, and how very, very happy shall be our lot if we have the great good fortune to be living in it!—Harper's Weekly.

Why Patrolmen Sleep on Their Beat.

When a patrolman sleeps on his beat he is not to be blamed any more. It is not laziness, nor shirking, nor any of these things. Physicians proved that the other day. C. W. Curtis, former city marshal of Marlboro, Mass., had the habit of sleeping too much on his beat. He died recently, and an autopsy was performed. It showed a cancer of the pancreas. That in nearly every case, say the physicians, is the cause of excessive sleeping.

A Literal Youth.
"Why, Johnny," said Mrs. Muggins, "what are you doing here at home? Is Willie's party over?"

"None," blubbered Johnny, "but the minute I got inside the house Willie's father told me to make myself at home, and I came."—Harper's Weekly

NO CONTRACT WAS LET

Sales of Ditching Job on Ditch No. 14. Was Postponed Until April 3, by the County Auditor

County Auditor Smart and Engineer Walter L. Wilson, of Morgan & Wilson, in charge of county ditch No. 14, opened bids for the work Wednesday afternoon. The bids received were as follows:

Hackman & Wahl: Main ditch, 13¢ cents per yard. Branches and forks, 14 cents per yard.

Jacob R. Mulick & Co. Entire job for 11 2-3 cents per cubic yard. The bid of Mulick & Co., was not accompanied by certified check or bond as a guarantee of good faith, so the sale was postponed till April 2, and in the meanwhile the auditor will communicate with the bidders and see if they mean business. Both bids are considered reasonable, the engineer's estimate being 12¢ cents.

A Correction

Because of carelessness in correcting proof, two or three bad errors occurred in the article of W. D. McKay yesterday on the bond issue question. In speaking of the saving of fuel it should have read \$6,000 instead of \$65,000, and \$65,000 as the cost of plant instead of \$6,000, and \$3,250 instead of \$3,500 as the saving on hydrant rental, as appeared in the article. In spite of constant care errors like this occur now and then which we very much regret.

Given up to Die

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney cure was recommended and the first bottle gave me much relief, and after taking the second bottle I was entirely cured." Why not let it help you. H. P. Dunn. mwf dw

WANTS FOREST RANGERS

Civil Service Examination Will be Held in Cass Lake on April 23 and 24 for the Positions

There will be 300 more forest rangers needed by the United States in the present fiscal year than in that last past and as a result of the demand the United States civil service commission has ordered examinations to be held in each national forest on April 23 and 24. The only examination to be held in Minnesota will be at Cass Lake. Information as to the requirements will be furnished on application by the commission at Washington, or by the forest supervisor at Cass Lake. For men liking an out door life the work is said to be very pleasant, especially for those experienced in wood craft.

FT. RIPLEY BRIDGE

Morrison County Officials Visited Brainerd and Conferred With County Commissioners

The Little Falls Transcript says concerning the bridge at Ft. Ripley:

"County Superintendent of Roads Phil S. Randall and County Commissioner Andrew Johnson made a trip to Brainerd Monday where they held a meeting with the county commissioners of Crow Wing county in regard to the Ft. Ripley wagon bridge over the Mississippi river connecting Morrison and Crow Wing counties.

"When the bridge was built about five years ago it was done hurriedly and permission was not obtained by the United States government to run the bridge over the river. This made the work illegal as the government has control of all rivers. At the present time repairs are necessary on the bridge but the officials do not wish to spend any more money until permission has been received as they might receive orders at any time to take out the bridge.

"The commissioners of both counties are willing to take steps to obtain government authority. Another meeting will be held soon and application will be made to Congressman C. A. Lindbergh to introduce a bill in congress for that purpose."

Odd Fellows at Aitkin

The Aitkin Odd Fellows had the pleasure of entertaining a company of about thirty members of the fraternity from Brainerd and Deerwood yesterday afternoon and evening. The visiting brethren were met at the train and taken to the lodge hall, where they met many of the local members and were entertained at a smoke social and cards. The Willard was made their headquarters and they were the guests of the local lodge there. In the evening the lodge met in regular session for work in the first degree, and the initiatory was confirmed by the Brainerd degree team in a very able manner. After the lodge work a banquet and social was enjoyed. The long table in the dining room was spread in an inviting manner and cut flowers and lodge emblems composed the decorations. A general good time was declared the best ever by the visitors in a rising vote and the local members were proud in the success and pleasure of the affair.—Aitkin Age.

No Case on Record

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a yellow package. Contains no opiates and is safe and sure. H. P. Dunn. mwf dw

BARBER SHOP WAS BURGLARIZED

Shop Owned by Gus Raymond Was Entered Thursday Night and Barber Tools Taken

GLASS IN DOOR WAS BROKEN

Burglars Must Have Watched Raymond and Entered Very Soon After He Left

The barber shop of Gus Raymond, in the basement of the post office building, was burglarized Thursday night. All the barber tools in sight were taken, including two pair of clippers, all there were belonging to the shop, a couple of pair of shears, and five razors. Supplies of hair tonic, shampoo and other preparations used by barbers were also taken. In fact the shop was so thoroughly cleaned out that had not Chas. Sunberg taken his razors home with him the boys would have been unable to open up the shop this morning.

Entrance was effected through the front door of the shop, a large chunk of coal having been used to break the glass so that it was easy to reach in and turn the spring lock which was used to secure the door.

Apparently the party or parties watched Mr. Raymond leave the shop and entered almost immediately afterwards. He was working on his books there until about 11 o'clock, when he left and went home. About half past 11 o'clock Charles A. Frost, jeweler for E. S. Houghton, and Henry Rosco, who was with him in the store, heard the crashing of glass as if a window was broken. They thought it was in the Ransford block and went outside and listened for any further disturbance, but hearing none and seeing no one, made no further investigation.

Notice to Our Customers

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. H. P. Dunn. mwf dw

FROM CALIFORNIA

R. H. Carr Writes Entertainingly of His Trip to Various Cities on the Pacific Coast

THE DISPATCH is in receipt of the following letter from R. H. Carr, the popular Northern Pacific engineer:

"Los Angeles, Cal., Mar. 14, 1908. "EDITOR DISPATCH—I will give you a short account of my trip to Los Angeles. I had a pleasant trip over the Northern Pacific railroad and stopped at Spokane, Tacoma and Portland, where I met a number of acquaintances, some from Brainerd. These towns are all prosperous and have bright futures before them.

"I took the Southern Pacific and stopped off at San Francisco. This city is building up rapidly since the earthquake and most of the buildings are constructed of iron and such material.

"I arrived in Los Angeles over the Southern Pacific and find that the city has improved a great deal, especially in size since I was here ten years ago. At that time the population was 108,000. They now claim 275,000. Here I met a number of Brainerd friends, S. L. Bean, Jerry W. Flickwir and family, Joe W. Flickwir, Mrs. Lagerquist and others.

"Los Angeles has a large number of fine hotels and beautiful residences. Just at present the people are looking forward to the visit of Rear Admiral Evans and his fleet, which will anchor off San Pedro in San Monica bay, expect to remain here and in the vicinity for a month yet."

This is Worth Remembering

Whenever you have a cough or cold, just remember that Foley's Honey and Tar will cure it. Do not risk your health by taking anything but the genuine. It is in a yellow package. A. P. Dunn. mwf dw

BACK FROM MEXICO

J. G. Dawes, of Pine River, in Brainerd on His Way Home From a Two Months' Visit in Southwest

J. G. Dawes, for many years a prominent business man of Pine River, is in Brainerd on his way home from a two months' visit to New Mexico. He also visited Mexico while there. He is much pleased with the climate of New Mexico and thinks there are some very desirable locations there for men with means and that it will be a great country in time. As he went through Texas the winter wheat was six inches high and other vegetation was about equally advanced. There was no snow south of the twin cities to speak of but little if any farm work was in progress north of St. Louis.

A severe cold that may develop into pneumonia over night, can be cured quickly by taking Foley's Honey and Tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. H. P. Dunn. mwf dw

"At the Unique"

The program at the Unique last night was a good one and drew a good house. The illustrated song, "I Love You and the World is Mine," sung by Miss Kathleen Graham was well rendered and made a hit with the audience as did the solo sang by her. The headliner in the moving pictures was "Going to Switzerland," a scenic piece of rare beauty, showing some of the grandest scenes in the Alps. "The Adventures of an Overcoat," "Any Barrels to Sell?" and "Energizer," were comic and kept the audience in a roar of laughter.

"Bijou"

At the Bijou last night there was a large crowd in attendance. Leonard Phillips, the Irish Swede, made a hit, and Louise Desmond, of the Desmond Sisters, also took a part in the vaudeville program. The moving pictures were very fine. The headliner was "Rival Pompeians" and it was supplemented with several very good pieces, "A Comedy of Errors" being especially amusing. The vaudeville bill for the first half of next week is Wolf and Vaughn in "The County Sheriff." Blind Thatcher, the musical wonder is also billed for the latter part of next week. Tonight the headliner will be "Maneuvers of the Fire Department at Madrid."

Kerry Gow Tomorrow Night

The Winnipeg Telegram of March 13, says of "Kerry Gow," which will be produced in the opera house tomorrow evening:

"No sweeter little play has ever graced the boards of the Walker theatre than "Kerry Gow," which last night won the hearts of a large audience by its genuine wholesomeness and its true ring of Hibernian life.

"Bernard Daly may not be a star of the first magnitude, but his heart is in his work, and he has wonderful possibilities. The Irish-Canadians in Winnipeg must see "Kerry Gow," and, indeed, its purity and sweetness would do the clergy a world of good and eliminate from their minds any prejudice they might have gathered from stage and stagey things.

"Kerry Gow" will win the hearts of all who listen to its pure and simple story, for, indeed, it is the story and not the actors alone, that win the applause during the performance, and fill the theatre-goers with a genuine sense of satisfaction as they turn their backs on the pretty scenery of the four acts when leaving the theatre.

"Bernard Daly, during the play, introduces some beautiful melodies which his sweet tenor voice lends itself to admirably, and wins hearty applause.

"While in Butte, Montana, the clergy turned out almost en masse to see "Kerry Gow," which is a splendid tribute to its worth."

Prices, \$1, 75c, 50c, 25c. Seats now on sale at Dunn's drug store.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

LUDLOW'S GOOD LUCK

Millions In Store For a Massachusetts Town.

DAZZLING FUTURE BEFORE IT

Magnificent Windfalls Planned by Charles D. Rood For His Native Village—The Worthy Poor to Be Aided. Money For Abstemious Young Men.

The little town of Ludlow, not far from Springfield, Mass., has a dazzling future before it. After awhile \$10,000 is going to be distributed to certain of its citizens.

After another while \$317,268 will be passed around, and finally, after a third chance to get its breath, \$10,193,195 will be bestowed on the Ludlow folks.

It is stupendous. There is only one trouble. It's going to be an uncommonly long time between chances to quaff this golden flood. Ludlow, in fact, is keeping quite calm.

According to the Village, Charles D. Rood is the man who has planned these magnificent windfalls for his native village. He was born in Ludlow sixty-six years ago and still has a summer home there. But at an early age he left the place, went out into the world and proceeded to make gobs of money. He decided to give four gobs to Ludlow.

The first one, amounting to \$1,000, will be placed at interest until the next centennial of Ludlow's settlement and then be distributed among the worthy poor of the town, especially in the center district. Certain sums to be given to every young man who has abstained from the use of intoxicating liquors and tobacco until his twenty-first birthday are excepted.

Another \$1,000 will be placed at interest and used in the second centennial in the same manner.

A third \$1,000 will be placed at interest and used in the third coming centennial under similar conditions.

Of the fourth \$1,000 the interest is to be used perpetually and annually for prizes for the best pupils in the different schools.

These gifts may look comparatively small on their face, but when figured out in their ultimate proportions they loom large. The next centennial of the town will come sixty-six years from next June. The first \$1,000, invested at 3½ per cent interest, compounded semiannually, as is the custom with savings banks, will amount to \$9,875 on the next centennial day.

As Ludlow has but 3,881 inhabitants, according to the census of 1905, and the total number of registered voters last year was less than 500, this sum will provide adequately for the abstemious young men and the worthy poor unless the town grows more rapidly than it has grown in the last 134 years.

The second \$1,000, invested under similar conditions, will yield \$317,268 at the following centennial, 166 years from now. With the knowledge of this fund, which doubtless will be widespread at that time, the number of nondrinking and nonsmoking young men in town ought to be large enough to give Ludlow a worldwide reputation for the conduct of its youth.

But the grand prize is still a century off. The third \$1,000, invested at 3½ per cent, will, in June of the year 2174, when the time comes for its distribution, amount to the stupendous sum of \$10,193,195, increasing more than ten thousandfold from the original sum. The number of virtuous young men and worthy poor that can be provided for with this great fund would be enough to make a respectably sized city.

More than this, the town's benefactor has provided for perpetual and annual prizes for the best pupils in the public schools, annual relief for the poor of the town, independently of the distributions of the large funds, annual assistance in the support, maintenance and repair of the First Congregational church of Ludlow and the payment of the pastor's salary.

There will be also annual distributions of Bibles to baptized children who have reached the age of seven years and money prizes for Sunday school pupils who have had a perfect record of attendance for a year.

New Danger For Nurses.

Superintendent Frisbee of the Prudential Life Insurance company related an incident which greatly stirred those present, embodying as it does a striking exemplification of loyalty. A few weeks ago Agent E. E. Searing of the Newark (N. J.) staff, while in pursuit of his daily work, was struck by a trolley car and seriously injured. One of his legs was broken in two places, and his head was severely lacerated. Sick and all as he was—unable to stand, indeed—he actually got on the job and secured from the trained nurse attending him an application for a \$1,000 twenty year endowment policy, collecting the annual premium of \$41.97. As can readily be imagined, the recitation of these facts aroused the meeting to great enthusiasm and applause for the grand old man.

Artistic Visiting Cards.

A pretty idea in visiting cards is to be revived in Vienna by the Austrian Ex Libris library. It is proposed to have the cards decorated with a tiny etching as well as the name, each design being distinctive of its owner. The artistic visiting card, which was customary in the eighteenth century, would not only be a characteristic expression of one's taste and tendencies, but it would provide another object for "collecting."

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

LUDLOW'S GOOD LUCK

Millions in Store For a Massachusetts Town.

DAZZLING FUTURE BEFORE IT

Magnificent Windfalls Planned by Charles D. Rood For His Native Village—The Worthy Poor to Be Aided. Money For Abstemious Young Men.

The little town of Ludlow, not far from Springfield, Mass., has a dazzling future before it. After awhile \$10,000 is going to be distributed to certain of its citizens.

After another while \$317,268 will be passed around, and finally, after a third chance to get its breath, \$10,193,195 will be bestowed on the Ludlow folks.

It is stupendous. There is only one trouble. It's going to be an uncommonly long time between chances to quaff this golden flood. Ludlow, in fact, is keeping quite calm.

According to the Village, Charles D. Rood is the man who has planned these magnificent windfalls for his native village. He was born in Ludlow sixty-six years ago and still has a summer home there. But at an early age he left the place, went out into the world and proceeded to make gobs of money. He decided to give four gobs to Ludlow.

The first one, amounting to \$1,000, will be placed at interest until the next centennial of Ludlow's settlement and then be distributed among the worthy poor of the town, especially in the center district. Certain sums to be given to every young man who has abstained from the use of intoxicating liquors and tobacco until his twenty-first birthday are excepted.

Another \$1,000 will be placed at interest and used in the second centennial in the same manner.

A third \$1,000 will be placed at interest and used in the third coming centennial under similar conditions.

Of the fourth \$1,000 the interest is to be used perpetually and annually for prizes for the best pupils in the different schools.

These gifts may look comparatively small on their face, but when figured out in their ultimate proportions they loom large. The next centennial of the town will come sixty-six years from next June. The first \$1,000, invested at 3 1/2 per cent interest, compounded semiannually, as is the custom with savings banks, will amount to \$9,875 on the next centennial day.

As Ludlow has but 3,881 inhabitants, according to the census of 1905, and the total number of registered voters last year was less than 500, this sum will provide adequately for the abstemious young men and the worthy poor unless the town grows more rapidly than it has grown in the last 134 years.

The second \$1,000, invested under similar conditions, will yield \$317,268 at the following centennial, 166 years from now. With the knowledge of this fund, which doubtless will be widespread at that time, the number of nondrinking and nonsmoking young men in town ought to be large enough to give Ludlow a worldwide reputation for the conduct of its youth.

But the grand prize is still a century off. The third \$1,000, invested at 3 1/2 per cent, will, in June of the year 2174, when the time comes for its distribution, amount to the stupendous sum of \$10,193,195, increasing more than ten thousandfold from the original sum. The number of virtuous young men and worthy poor that can be provided for with this great fund would be enough to make a respectably sized city.

More than this, the town's benefactor has provided for perpetual and annual prizes for the best pupils in the public schools, annual relief for the poor of the town, independently of the distributions of the large funds, annual assistance in the support, maintenance and repair of the First Congregational church of Ludlow and the payment of the pastor's salary.

There will be also annual distributions of Bibles to baptized children who have reached the age of seven years and money prizes for Sunday school pupils who have had a perfect record of attendance for a year.

New Danger For Nurses.

Superintendent Frisbee of the Prudential Life Insurance company related an incident which greatly stirred those present, embodying as it does a striking exemplification of loyalty. A few weeks ago Agent E. E. Searing of the Newark (N. J.) staff, while in pursuit of his daily work, was struck by a trolley car and seriously injured. One of his legs was broken in two places, and his head was severely lacerated. Sick and all as he was—unable to stand, indeed—he actually got on the job and secured from the trained nurse attending him an application for a \$1,000 twenty year endowment policy, collecting the annual premium of \$1.97. As can readily be imagined, the recitation of these facts aroused the meeting to great enthusiasm and applause for the grand old man.

Artistic Visiting Cards.

A pretty idea in visiting cards is to be revived in Vienna by the Austrian Ex Libris Library. It is proposed to have the cards decorated with a tiny etching as well as the name, each design being distinctive of its owner. The artistic visiting card, which was customary in the eighteenth century, would not only be a characteristic expression of one's taste and tendencies, but it would provide another object for "collecting."

Y. M. C. A. Gymnasium Exhibition, March 24th

The above illustration is one of the samples of many of the formations that will feature the gymnasium exhibition to be given at the opera house on Tuesday evening next. The physical section of the association has shown a most splendid record and will give the public a very entertaining program. The proceeds will be used to supply some needed equipment for the gymnasium.

MARKED FOR LIFE.

Canary Island Merry-makers Can't Get Rid of Birds Tattooed on Faces.

Reports recently received in Madrid from Las Palmas, Canary Islands, tell of an amusing case. Eighty persons have brought suits for damages against a chemist named Alonso. It appears that during the carnival a man applied for a novel kind of facial disguise, and the chemist painted on the man's face a large green fly.

This carnival decoration proved a popular success, and many other revelers called and had their foreheads, cheeks and noses adorned with green images of birds, flies and rabbits. After the carnival ended the wearers of these decorations discovered that there was no soap strong enough to remove the paint and complained to the authorities.

A Madrid expert declares the method employed is the same used by the Indians for tattooing purposes and that these citizens of the Canary Islands will have to wear the green pictures for the rest of their lives.

Alonso barely escaped lynching, and now the courts are called upon to decide the question.

Piece of Candy as Legacy.

Lewis Byerly of Danville, near Wilkesbarre, Pa., has received a memento of his dead friend, Henry Search, who was buried a few days ago. On a Christmas thirty-seven years ago Byerly in fun presented Search with a piece of candy. The following Christmas Search retaliated by giving Byerly the same piece of candy, and since then each Christmas the one owning it presented it to the other until it became a memento of their friendship. Just before he died Search directed that the candy be sent to Byerly. It is a small dried up piece of candy about the size of a hickory nut and much discolored.

ENTIRE CITY INTERESTED IN YOUNG MAN

Cooper's New Theory Attracts Widespread Attention During Stay in Cincinnati.

An adequate idea of the intense interest which has been aroused by young Mr. Cooper during the past year with his theories and medicines is given in the following article which appeared in the Cincinnati Post while Cooper was introducing his ideas to the people of that city. The article says: "The beginning of Mr. Cooper's second week in Cincinnati gives every indication that he is to enjoy the same astonishing success here as in other cities."

"From the first day of his visit the crowds that call to see him have steadily increased, until now it has reached a point where several thousand talk with him each day. The entire city seems to have become interested in his theory that the human stomach is degenerate, and he already has an army of followers in Cincinnati who seem positive that his claims are correct."

"A number of Cincinnatians were interviewed at Cooper's headquarters on Friday, and several interesting statements, showing their intense faith in Cooper's preparations, were secured. The following are selected from these statements and are characteristic of them all: Mrs. M. E. Emerson of 630 West Court street, said: 'I have suffered with stomach trouble and constipation for a year or so. When I ate I would have bloated spells, sour stomach, fermentation, bad taste in my mouth. In the morning I was as

Position of Racing Cars.

Ogden, Utah, March 20.—The American car in the New York to Paris automobile race is stalled west of Ely, Nev. The car is about 700 miles in the lead of the closest pursuer. The Italian car is somewhere between Carter and Leroy, Wyo. The French car and the German car are west of Grand Island, Neb.

PASSED BY THE HOUSE.

Pension Bill Carries Largest Sum Ever Authorized by That Measure.

Washington, March 20.—After several hours of spirited discussion over the proposition to abolish seventeen of the eighteen United States pension agencies and consolidate pension disbursements in Washington, the house of representatives passed the pension appropriation bill, carrying \$159,869,900, the largest sum ever authorized by that measure. The house by a vote of 86 to 139 stood by the committee on appropriations and left unchanged its recommendations for one general agency.

In the course of the debate Mr. Fitzgerald of New York accused the president of using federal patronage to further the interests of Secretary Taft for the presidency. Early in the day the president was attacked by Messrs. Harrison of New York and Williams of Mississippi for having, as they stated, surpassed his constitutional authority in making laws for the Panama canal zone by executive order.

Fatal Quarrel Over Money.

Norfolk, Va., March 20.—John V. Blaylock, a contractor of Lambert's Point, was shot and killed by Henry Hyslop in a quarrel over 70 cents. Hyslop called at Blaylock's home to collect a bill and the latter attempted to eject him.

EXPLOSION IN MINNEAPOLIS

Results in Injury to Half a Dozen Men.

Minneapolis, March 20.—During a fire on North Sixth street, which did \$60,000 damage, the lives of five members of the salvage corps and one police sergeant were endangered by the collapse of the third floor of the Gamble-Robinson Wholesale Fruit company building. The collapse was followed by an explosion that blew out both ends of the structure.

Lieutenant Frank Cross, Al Fleetman, Paul Thompson, Steven Linham and James Allerdico, members of the salvage corps, were covering the stock on the lower floor of the Gamble concern when the collapse and explosion occurred. The men were hurled like chaff, along with barrels, boxes and debris, twenty feet into the street. None of them sustained greater injuries than painful bruises and cuts.

Sergeant Russel probably was hurt worse than the firemen, although he was not in the building at the time of the explosion. One of the doors was hurled against him, knocking him to the ground.

The explosion is supposed to have been caused by the sudden forcing of hot air into the unventilated confines of the first floor when the third floor collapsed.

PANIC DURING FIRE DRILL

Ten Children Trampled Upon by Their Comrades.

Kattowitz, Prussian Silesia, March 20.—During a fire drill in the city school there was a stampede among the children, which resulted in ten of the little ones being trampled by their comrades until they were unconscious. No lives were lost. The signal for the fire drill was given, but one of the exit doors was inadvertently left locked. With the warning bell the children in the sixth class started for this door. They found it shut against them and their further progress barred. The children behind did not know what was the matter and pressed so fiercely upon those ahead of them that their comrades against the door were trampled under foot. Passersby heard the cries of the children and managed to get the door open and put an end to the panic.

TAKES CARBOLIC ACID.

Member of Prominent St. Louis Family Commits Suicide.

St. Louis, March 20.—The body of Mrs. Elizabeth G. Koken, member of the Koken family, which controls the Koken Iron works, Banner Iron works and the Koken Barber Supply company, was found in bed at the home of her sister, the woman having committed suicide with carbolic acid.

She called at the home of Mrs. George Wackerlin, her sister, and said she wanted to stay all night, admonishing her sister not to call her until late. Her body, fully dressed, was found lying on the bed with an empty carbolic acid bottle at her side. No reason for her act is assigned.

Bryan Celebrates His Birthday.

Chicago, March 20.—Declaring that the greatest of present day evils is "the domination of politics by the favor-seeking corporations" and asserting that the Democratic party is the best qualified to undertake the task of correcting this, William J. Bryan celebrated his forty-eighth birthday by delivering a speech on national issues before a big mass meeting in the Seventh regiment armory on Sixteenth street.

BUBONIC PLAGUE WAR

Two Thousand Rats Slain Daily In San Francisco.

CAMPAIGN ACTIVELY WAGED.

Health Officers Report \$63,330 Contributed to Fight the Disease—Two Hundred Men at Work Destroying Rodents—Plague Prevention Taught in Public Schools.

The campaign in San Francisco against the bubonic plague continues to be vigorously conducted, and the results, the health officers declare, are becoming more satisfactory. Dr. Rupert Blue of the United States marine hospital service, who is in charge of the campaign, said that the co-operation of the citizens in the movement to prevent the spread of the contagion is gratifying, and he and his assistants are greatly encouraged.

"Since Jan. 1 there have been only three cases," said Dr. Blue, "and one suspicious case was brought to light the other day, that of a man who had been a vagrant for several months. He had been sent to the isolation hospital, and we will know about his case after he has been there a short time. None of the new cases has resulted fatally."

"The work of exterminating the rats is progressing very satisfactorily. They are being killed off at the rate of 2,000 or more a day. The rat infection in the infected districts averages about the same—about 1 per cent. Fleas, which carry the disease, are increasing in number on the rats as the weather grows warmer, and the citizens should therefore redouble their efforts in the battle royal against the rodents. The work of the citizens thus far is certainly to be commended, and if it is maintained I have no doubt that we will be able to steer a clean road from danger."

The first announcement made by the finance committee of the citizens' health body shows contributions of \$63,330 toward the \$500,000 fund which is to be raised for the purposes of sanitation.

Money is reaching the committee in large amounts. The Southern Pacific heads the list with a contribution of \$30,000, with the Santa Fe second, with \$15,000. A small sized army of men is being used in the work of sanitation, and it is figured that the campaign will extend through the entire summer. At least \$500,000 in addition to the government appropriation will be used.

The approach of the time when the thousands of American sailors from the battleship fleet will be given liberty in San Francisco has aroused its inhabitants and business interests to the need for showing a perfectly clean bill of health. The garbage collection and destruction service is being reorganized, and where residents cannot pay for the removal of rubbish it is done at public expense.

The eradication of the rats is an interesting feature of the plague war. The city employs a large force of men doing nothing but spreading poison upon brown bread, which is scattered systematically in certain squares of the city. Two hundred men are now employed. These men are trained in rat catching and as soon as they are competent are sent out to work in the districts into which the city is divided.

The campaign is one of education, and meetings of every line of business have been held and the aid of the church federation asked. Teachers in the public schools have incorporated plague prevention as a portion of the curriculum, and women's clubs even have inspectors at work doing volunteer duty. Drug stores have been distributing rat poison free, and rat traps and garbage cans cannot be obtained as fast as they are required.

Murderous Brass Knuckles.

A pair of "brass" knuckles, were shown in Essex Market court, in New York, the other day, which Lieutenant Jones of the court squad said were the most murderous weapons of the kind he had ever seen. They were found on Mike Polchesky, a Pole, of 19 Oakland street, Greenpoint, and were the cause of his being held in \$1,000 bail for general sessions. He was arrested for fighting. The knuckles were of quarter inch steel and had five sawteeth about an inch long, sharpened to a point. In the palm of the hand were two spikes about two inches long, sharp enough to penetrate the brain if driven by a swing of the arm.

Effect of the Financial Panic.

The recent financial crisis in the United States threw out of work over 4,500 diamond cutters in Antwerp.

March.

De day, is growin' longer
An' de sunlight gettin' stronger,
An' de buds dose start a-spreadin' on de limb.
Robln come a-swingin'
An' a-practicin' de singin'
Dat make de birds all envious of him.
Already I's forgettin'
All de sorrow an' regrettin'
Dat come to me when chilly winds would sigh.
'Cause you does feel right forgivin',
Kind o' glad dat you is livin',
When do world say, "Mistuh Wintertime, goodby!"

Do brook commence a-bubblin'
An' a-tumblin' an' a-troublin'
Like it had a heap o' doin's on its mind.
De moss is green an' glowin',
An' arbutus stahts a-growin'
In places only knowin' folks kin find.
An' next de blossoms tiny
Will look up wif faces shiny.
Like little echoes f'm de sky so blue.
Wif happiness before us
We will all jine in de chorus
When de world exclaims, "Miss Springtime, howdy do!"
—Atlanta Constitution.

WITHOUT AMENDMENTS.

Report of Scale Committee Adopted by Mine Workers.

Indianapolis, March 20.—The national convention of the United Mine Workers of America spent an entire day discussing the report of the scale committee, adopting all the sections considered without amendments. All propositions to change the report were defeated by decisive votes. The last seven sections are still to be discussed, but they are of minor importance.

The report of the committee was defended by President Mitchell, Vice President Lewis, Secretary Wilson and Chairman Walker of the scale committee. Efforts to fix a minimum day wage scale for outside and inside labor, to adjust differences in Illinois, to make settlements biennially, to insist upon the immediate rehabilitation of the interstate agreement, received little encouragement, the miners desiring to go before the country and the operators as a unit on all questions decided by the scale committee.

Under the report, which seems sure of adoption without change, miners will press the present wage scale and the present conditions to the operators of the district as their minimum demands and in the districts where an agreement is not reached the miners will be allowed to sign with operators individually by and with the consent of the international executive board. Indiana operators will meet here in joint conference with the miners on March 24.

TWO NEGROES LYNCHED.

Taken From Jail by a Florida Mob and Shot to Death.

Perry, Fla., March 20.—A mob of armed citizens surrounded the county jail and took Richard Smith and Will McMullen, negroes, from the jail, carried them quietly to a secluded spot on the outskirts of the town and after binding them to stakes, riddled their bodies with bullets.

Smith was charged with the murder of a white man a few days ago and McMullen was awaiting trial for the murder of another negro.

Senator Bryan Critically Ill.

Washington, March 20.—The condition of Senator Bryan of Florida is critical. It was reported at Providence hospital, where the senator has been ill with typhoid fever for the past three weeks, that the crisis has been reached. The senator had a sinking spell, from which he rallied slightly later.

Two Killed by Dynamite.

Santa Fe, N. M., March 20.—Two persons were killed outright and three others seriously injured at Los Tanos, on the El Paso and Southern railroad, by an explosion of seven sticks of dynamite which were being thawed in a stove.

TELEGRAPHIC BREVITIES.

United States Senator Penrose is dangerously ill at his home in Philadelphia suffering from erysipelas.

The German government has decided to establish a postal check system modelled after the Australian system.

There is no truth in the rumors that Henry H. Rogers, the Standard Oil magnate, is seriously ill in bed in Bermuda.

In February, Portland, Ore., exported a greater quantity of wheat than any other port in the United States, taking the lead from New York.

Reports of the illness of Count Leo Tolstol have been received at Moscow. He is quite weak as the result of an attack of influenza and his condition excites alarm.

Germans and Hottentots Fight.

Berlin, March 20.—The government has published a cablegram from South Africa reporting a battle between the German expeditionary forces and a body of Hottentots in the Kalahari desert. The engagement was a very severe one. The enemy lost 58 killed. The German losses also were heavy. Captain von Erckert, commander of the expeditionary force, Lieutenant Ebinger and twelve privates being killed and seventeen wounded.

Are You Bankrupt

IN NERVE FORCE?

If you spend three dollars a day and earn two you are sure to come to bankruptcy and yet this is just what thousands of us are doing in regard to health. By overwork, worry and anxiety the energy and vigor of the body is wasted more rapidly than it is built up and the result is bankruptcy of health. Sleeplessness, headaches, indigestion, worn-out feelings, spells of weakness and dependency are some of the symptoms which tell of the approach of nervous prostration or paralysis.

Dr. A. W. Chase's Nerve Pills

Supply in condensed and easily assimilated form the very ingredients from which Nature constructs nervous energy and builds up the human system. They positively overcome the symptoms referred to above and prevent and cure the most serious forms of nervous diseases. 50 cents a box, at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N.Y.

Miss T. Martin, 524 Sherman Avenue, Troy, Ohio, says:

"By overwork I was compelled to give up in nervous condition that it resulted in nervous prostration. I secured Dr. A. W. Chase's Nerve Pills, and continued the treatment until it completely restored me to my usual strength and good health."

Fatal Quarrel Over Money.

Norfolk, Va., March 20.—John V. Blaylock, a contractor of Lambert's Point, was shot and killed by Henry Hyslop in a quarrel over 70 cents. Hyslop called at Blaylock's home to collect a bill and the latter attempted to eject him.

EXPLOSION IN MINNEAPOLIS

Results in Injury to Half a Dozen Men.

Minneapolis, March 20.—During a fire on North Sixth street, which did \$60,000 damage, the lives of five members of the salvage corps and one police sergeant were endangered by the collapse of the third floor of the Gamble-Robinson Wholesale Fruit company building. The collapse was followed by an explosion that blew out both ends of the structure.

Lieutenant Frank Cross, Al Fleetham, Paul Thompson, Steven Linham and James Allerdico, members of the salvage corps, were covering the stock on the lower floor of the Gamble concern when the collapse and explosion occurred. The men were hurled like chaff, along with barrels, boxes and debris, twenty feet into the street. None of them sustained greater injuries than painful bruises and cuts.

Sergeant Russel probably was hurt more than the firemen, although he was not in the building at the time of the explosion. One of the doors was hurled against him, knocking him to the ground.

The explosion is supposed to have been caused by the sudden forcing of hot air into the unventilated confines of the first floor when the third floor collapsed.

PANIC DURING FIRE DRILL

Ten Children Trampled Upon by Their Comrades.

Kattowitz, Prussian Silesia, March 20.—During a fire drill in the city school there was a stampede among the children, which resulted in ten of the little ones being trampled by their comrades until they were unconscious. No lives were lost. The signal for the fire drill was given, but one of the exit doors was inadvertently left locked. With the warning bell the children in the sixth class started for this door. They found it shut against them and their further progress barred. The children behind did not know what was the matter and pressed so fiercely upon those ahead of them that their comrades against the door were trampled under foot. Passersby heard the cries of the children and managed to get the door open and put an end to the panic.

TAKES CARBOLIC ACID.

Member of Prominent St. Louis Family Commits Suicide.

St. Louis, March 20.—The body of Mrs. Elizabeth G. Koken, member of the Koken family, which controls the Koken Iron works, Banner Iron works and the Koken Barber Supply company, was found in bed at the home of her sister, the woman having committed suicide with carbolic acid. She called at the home of Mrs. George Wakerlin, her sister, and said she wanted to stay all night, admonishing her sister not to call her until late. Her body, fully dressed, was found lying on the bed with an empty carbolic acid bottle at her side. No reason for her act is assigned.

Bryan Celebrates His Birthday.

Chicago, March 20.—Declaring that the greatest of present day evils is "the domination of politics by the favor-seeking corporations" and asserting that the Democratic party is the best qualified to undertake the task of correcting this, William J. Bryan celebrated his forty-eighth birthday by delivering a speech on national issues before a big mass meeting in the Seventh regiment armory on Sixteenth street.

BUBONIC PLAGUE WAR

Two Thousand Rats Slain Daily In San Francisco.

CAMPAIGN ACTIVELY WAGED.

Health Officers Report \$63,330 Contributed to Fight the Disease—Two Hundred Men at Work Destroying Rodents—Plague Prevention Taught in Public Schools.

The campaign in San Francisco against the bubonic plague continues to be vigorously conducted, and the results, the health officers declare, are becoming more satisfactory. Dr. Rupert Blue of the United States marine hospital service, who is in charge of the campaign, said that the co-operation of the citizens in the movement to prevent the spread of the contagion is gratifying, and he and his assistants are greatly encouraged.

"Since Jan. 1 there have been only three cases," said Dr. Blue, "and one suspicious case was brought to light the other day, that of a man who had been a vagrant for several months. He had been sent to the isolation hospital, and we will know about his case after he has been there a short time. None of the new cases has resulted fatally.

"The work of exterminating the rats is progressing very satisfactorily. They are being killed off at the rate of 2,000 or more a day. The rat infection in the infected districts averages about the same—about 1 per cent. Fleas, which carry the disease, are increasing in number on the rats as the weather grows warmer, and the citizens should therefore redouble their efforts in the battle royal against the rodents. The work of the citizens thus far is certainly to be commended, and if it is maintained I have no doubt that we will be able to steer a clean road from danger."

The first announcement made by the finance committee of the citizens' health body shows contributions of \$63,330 toward the \$500,000 fund which is to be raised for the purposes of sanitation.

Money is reaching the committee in large amounts. The Southern Pacific heads the list with a contribution of \$30,000, with the Santa Fe second, with \$15,000. A small sized army of men is being used in the work of sanitation, and it is figured that the campaign will extend through the entire summer. At least \$500,000 in addition to the government appropriation will be used.

The approach of the time when the thousands of American sailors from the battleship fleet will be given liberty in San Francisco has aroused its inhabitants and business interests to the need for showing a perfectly clean bill of health. The garbage collection and destruction service is being reorganized, and where residents cannot pay for the removal of rubbish it is done at public expense.

The eradication of the rats is an interesting feature of the plague war. The city employs a large force of men doing nothing but spreading poison upon brown bread, which is scattered systematically in certain squares of the city. Two hundred men are now employed. These men are trained in rat catching and as soon as they are competent are sent out to work in the districts into which the city is divided.

The campaign is one of education, and meetings of every line of business have been held and the aid of the Church federation asked. Teachers in the public schools have incorporated plague prevention as a portion of the curriculum, and women's clubs even have inspectors at work doing volunteer duty. Drug stores have been distributing rat poison free, and rat traps and garbage cans cannot be obtained as fast as they are required.

Murderous Brass Knuckles.

A pair of "brass" knuckles were shown in Essex Market court, in New York, the other day, which Lieutenant Jones of the court squad said were the most murderous weapons of the kind he had ever seen. They were found on Mike Polchsky, a Pole, of 19 Oakland street, Greenpoint, and were the cause of his being held in \$1,000 bail for general sessions. He was arrested for fighting. The knuckles were of quarter inch steel and had five sawteeth about an inch long, sharpened to a point. In the palm of the hand were two spikes about two inches long, sharp enough to penetrate the brain if driven by a swing of the arm.

Effect of the Financial Panic.

The recent financial crisis in the United States threw out of work over 4,500 diamond cutters in Antwerp.

March.

De day: is growin' longer
An' de sunlight gettin' stronger,
An' de buds done start a-spreadin' on de limb.
Robin come a-swingin'
An' a-pettin' de singin'
Dat make de birds all envious of him.
Already I's forgettin'
All de sorrow an' regrettin'
Dat come to me when chilly winds would sigh.
'Cause you does feel right forgivin'.
Kind an' glad dat you is livin'.
When de world exclaims, 'Miss Spring time, howdy do!'

De brook commence a-bubblin'
An' a-tumblin' an' a-troublin'
Like it had a heap o' doin's on its mind.
De moss is green an' glowin'.
An' arbutus stabs a-growin'
In places only knowin' folks kin find.
An' next de blossoms tinsy
Will look up wif faces shiny,
Like little echoes o' de sky so blue.
Wif happiness before us
We will all jine in de chorus
When de world exclaims, 'Miss Spring time, howdy do!'

—Atlanta Constitution.

WITHOUT AMENDMENTS.

Report of Scale Committee Adopted by Mine Workers.

Indianapolis, March 20.—The national convention of the United Mine Workers of America spent an entire day discussing the report of the scale committee, adopting all the sections considered without amendments. All propositions to change the report were defeated by decisive votes. The last seven sections are still to be discussed, but they are of minor importance.

The report of the committee was defended by President Mitchell, Vice President Lewis, Secretary Wilson and Chairman Walker of the scale committee. Efforts to fix a minimum day wage scale for outside and inside labor, to adjust differences in Illinois, to make settlements biennially, to insist upon the immediate rehabilitation of the interstate agreement, received little encouragement, the miners desiring to go before the country and the operators as a unit on all questions decided by the scale committee.

Under the report, which seems sure of adoption without change, miners will press the present wage scale and the present conditions to the operators of the district as their minimum demands and in the districts where an agreement is not reached the miners will be allowed to sign with operators individually by and with the consent of the international executive board. Indiana operators will meet here in joint conference with the miners on March 24.

TWO NEGROES LYNCHED.

Taken From Jail by a Florida Mob and Shot to Death.

Perry, Fla., March 20.—A mob of armed citizens surrounded the county jail and took Richard Smith and Will McMullen, negroes, from the jail, carried them quietly to a secluded spot on the outskirts of the town and after binding them to stakes, riddled their bodies with bullets.

Smith was charged with the murder of a white man a few days ago and McMullen was awaiting trial for the murder of another negro.

Senator Bryan Critically Ill.

Washington, March 20.—The condition of Senator Bryan of Florida is critical. It was reported at Providence hospital, where the senator has been ill with typhoid fever for the past three weeks, that the crisis has been reached. The senator had a sinking spell, from which he rallied slightly later.

Two Killed by Dynamite.

Santa Fe, N. M., March 20.—Two persons were killed outright and three others seriously injured at Los Tanos, on the El Paso and Southern railroad, by an explosion of seven sticks of dynamite which were being thawed in a stove.

TELEGRAPHIC BREVITIES.

United States Senator Penrose is dangerously ill at his home in Philadelphia suffering from erysipelas.

The German government has decided to establish a postal check system modelled after the Australian system.

There is no truth in the rumors that Henry H. Rogers, the Standard Oil magnate, is seriously ill in bed in Bermuda.

In February, Portland, Ore., exported a greater quantity of wheat than any other port in the United States, taking the lead from New York.

Reports of the illness of Count Leo Tolstoy have been received at Moscow. He is quite weak as the result of an attack of influenza and his condition excites alarm.

Germans and Hottentots Fight.

Berlin, March 20.—The government has published a cablegram from South Africa reporting a battle between the German expeditionary forces and a body of Hottentots in the Kalahari desert. The engagement was a very severe one. The enemy lost 53 killed. The German losses also were heavy. Captain von Erckert, commander of the expeditionary force, Lieutenant Ebinger and twelve privates being killed and seventeen wounded.

Are You Bankrupt IN NERVE FORCE?

If you spend three dollars a day and earn two you are sure to come to bankruptcy and yet this is just what thousands of us are doing in regard to health. By overwork, worry and anxiety the energy and vigor of the body is wasted more rapidly than it is built up and the result is bankruptcy of health. Sleeplessness, headaches, indigestion, worn-out feelings, spells of weakness and dependency are some of the symptoms which tell of the approach of nervous prostration or paralysis.

Dr. A. W. Chase's Nerve Pills

Supply in condensed and easily assimilated form the very ingredients from which Nature constructs nervous energy and builds up the human system. They positively overcome the symptoms referred to above and prevent and cure the most serious forms of nervous diseases. 50 cents a box, at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N.Y.

Miss T. Martin, 524 Sherman Avenue, Troy, Ohio, says:

"By overwork I was compelled to give up in such a weakened condition that it resulted in nervous prostration. I secured Dr. A. W. Chase's Nerve Pills, and continued the treatment until it completely restored me to my usual strength and good health."

WANTED—Young man living in small towns, to distribute advertising matter. No canvassing. Good pay. Fred Leach, Quinlan Bldg., Chicago.

ENTIRE CITY INTERESTED IN YOUNG MAN

Cooper's New Theory Attracts Widespread Attention During Stay in Cincinnati.

An adequate idea of the intense interest which has been aroused by young Mr. Cooper during the past year with his theories and medicines is given in the following article which appeared in the Cincinnati Post while Cooper was introducing his ideas to the people of that city. The article says: "The beginning of Mr. Cooper's second week in Cincinnati gives every indication that he is to enjoy the same astonishing success here as in other cities.

"From the first day of his visit the crowds that call to see him have steadily increased, until now it has reached a point where several thousand talk with him each day. The entire city seems to have become interested in his theory that the human stomach is degenerate, and he already has an army of followers in Cincinnati who seem positive that his claims are correct.

"A number of Cincinnatians were interviewed at Cooper's headquarters on Friday, and several interesting statements, showing their intense faith in Cooper's preparations, were secured. The following are selected from these statements and are characteristic of them all: Mrs. M. E. Emerson of 630 West Court street, said: 'I have suffered with stomach trouble and constipation for a year or so. When I ate I would have bloated spells, sour stomach, fermentation, bad taste in my mouth. In the morning I was as

tired as when I went to bed. I had a dull pain in the lower part of my back. I have taken almost one bottle of the New Discovery and am so wonderfully improved that I have come down here to thank Mr. Cooper in person and obtain more of the medicine.'

"Another individual interviewed was Mr. J. H. Brooks, living at 527 Walnut street, who had the following to say: 'For the past eighteen months I have been a constant sufferer from catarrh of the head and stomach. My nasal passages would become inflamed and sore. I would have severe headaches, which affected my eyes, and great crusts of matter would drop into the throat, causing an irritation of the bronchial passages, until the stomach finally became poisoned. When I would lay down at night a phlegm would gather in my throat until it almost choked me, and would cause an annoying cough. Half a bottle of Cooper's New Discovery gave me relief, and when the first bottle was finished I felt like a new man. I am now completely cured and consider Cooper's New Discovery the greatest catarrh, blood and stomach remedy in the world.'

The Cooper preparations have been wonderfully successful throughout the United States. We consider them remarkable medicines and would be pleased to explain the nature of them.

—H. P. Dunn & Co.
